

PD® TEXTURE COAT

The PD® Texture Coat is a decorative concrete overlay system designed for new or existing concrete surfaces. It provides a durable and low maintenance wear surface for exterior and interior concrete and is available in multiple standard colors or custom colors and textures. Use special colors, textures and two-tone finishes to create borders, and designs a truly unique look and feel for each project.

The PD® Texture Coat will enhance the look and value of dull existing concrete at an affordable price. It's also an excellent solution for reconstruction and tenant improvements. PD® Texture Coat provides a cool, decorative, skid-resistant coating perfect for concrete pool decks, walkways, sidewalks, patios, and driveways as well as interior floors, stairs, and entryways, or to convert a run-down slab into a beautiful floor.

Simulated Tile

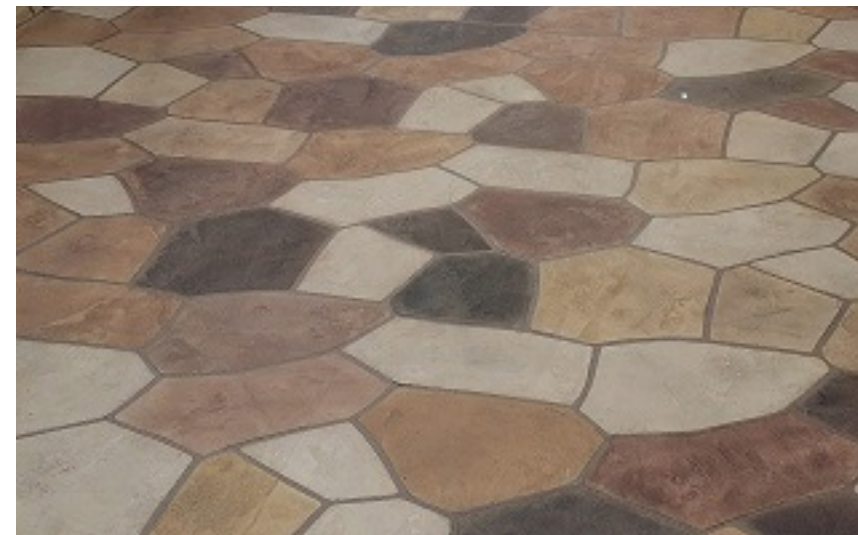

Wood Plank

IDEAL USES
